

Malawi Printing

Vision Books in Hickory, NC is responding to the request of the ministry in Malawi for printed materials. The spread of the Message has been great in the nation of Malawi and there are thousands of Believers spread all over the country. The ministers there travel to neighboring countries like Mozambique and Zambia who speak the Chichewa language. The ministry in the country are making a request for books, since the focus on tablets has not been successful, especially in outlying areas. Our printing process includes 3 sermons in one booklet and costs us approximately .26 cents US per booklet, or .08 cents per sermon. We are ready to print a large number of these sermon booklets (35,000 each) for the Believers in the Chichewa language.

At this time also we are researching the possibility of printing the King James Bible in two languages, Chichewa and Swahili. This will enable us to place thousands of Bibles all over Africa for a very small price. The Ministry constantly ask about Bibles for their congregations, since they are so difficult to obtain in their part of the world.

Here is a short report from Bro. Paddington Ngwira, in Madisi, Malawi:

“We met the Message translators. They’re doing a very good job. They are doing it through the Hub which they say it is easy to correct errors. We have seen they’ve already finished 20 Books. They are targeting, if funds would be enough, to supplying Message Books to North, Central and southern region of Malawi. They’re also desiring to supply the Printed Message Books to Chewa speaking neighboring countries

like Zambia and Mozambique. The work has been welcomed by most Pastors especially in the remote areas where they’ve no power to charge Tablets and some don’t even know how to operate them. Lack of Message Books put the fast spread of the Message to a stop. When I was going to the universities and secondary schools to preach, before I left I was sharing the Message Books to the students. When the students go on holiday they carried the Message Books to their respective homes. Many times it was discovered that the beneficiary of those Message Books were the brothers, sisters, parents who were at home and never heard the preaching or just visitors to that home. We have so many such testimonies where God spoke to people through Message Books. It’s our prayer that if there could be grace of funds may this team be funded to hasten this good work. May the Lord bless whoever had this vision.”
